

SHS

June 10, 1997

Dear Dr. Lederberg,

I am a graduating senior from the class of '97, who has been selected to receive an Alumni Scholarship in your name. I would like to thank you and also tell you a little about myself:

Next term, I will be attending Harvard University. My intended major is actually Biology, so I see we have similar interests, and I hope to become either a doctor or a researcher. Yours would be a wonderful example to follow - I know something about you from a friend who interviewed you a while ago; isn't that a coincidence?

Well, thank you again. It's really nice to receive a Dr. Joshua Lederberg Award, out of all awards. I hope you have enjoyed this letter. Best wishes!

Sincerely,
Amy Wang.
